AASP Sport Psychology On Call Program
Offers Specialty Sport Topic Authorities

MADISON, Wis. – April 2010 – Topics in sport such as anger and aggression, eating disorders, fan behavior, performance enhancement, injury and comebacks, disability, youth sport, sexual and gender issues, require an experienced authority to comment to the media.

The Association for Applied Sport Psychology is pleased to offer the media the resources of a number of authorities from the organization’s Special Interest Group (SIG) committees who specialize in unique areas related to sport issues.

The AASP leaders (their bios are attached), who are available as part of the organization’s Sport Psychology On Call program, are national and international CC’s-AASP who offer expertise in a wide variety of specific sport psychology issues including:

- Anger and aggression in sport
- Performance enhancement, aggression
- Fan behavior
- Eating disorders and body image
- Sport injury
- Youth sport
- Disability in sport and exercise
- Gay, Lesbian, Bisexual, Transgender in Sport

According to Dr. Amanda J. Visek, the AASP Executive Board member overseeing Public Relations and Outreach, “The goal of AASP is to foster a greater understanding of the field of sport and exercise psychology. Our Sport Psychology On Call program is available to provide the media with leaders who rank among some of the most knowledgeable in their respective fields.”

For additional information or to arrange an interview, please contact the AASP Public Relations Office at 440-543-8615, or via email at bw@yp-pr.com.

The Association for Applied Sport Psychology (AASP) promotes ethical practice, science and advocacy in the field of sport and exercise psychology. Founded in 1986, AASP is an international, multidisciplinary, professional organization that offers certification to qualified professionals in the field of sport and exercise psychology. With more than 1,200 members in 28 countries, AASP is a worldwide leader, sharing research and resources with the public via its website, www.appliedsportpsych.org.
