Project Title	
Primary Investigator Contact Information	Name: Title: Institution Name: Institution Academic Unit: Phone Number: Email: Website:
Other Investigator(s) Contact Information (if applicable)	Name: Title: Institution Name: Institution Academic Unit: Phone Number: Email: Website:
Project Synopsis (450 Words Max) Very broadly, what is the goal of the project? What will you do? Save specifics for the next sections. How does this research affect a potential backer/reader of your proposal? Answering this is critical.	

Project Background Information (800 Words Max) • What important work has already been done in this field? • Is there a critical piece of knowledge that is currently missing?	
Project Significance (800 Words Max) • Why is this field so important? • How does this project fill the missing knowledge (from the question above)? Try to answer the "so what?" question for a reader who is brand new to the topic.	

Project Goals (800 Words Max) What do you plan to carry out/produce? Think about defining goals as steps or methods.	
Budget Total List the total funding amount needed for the research project (or, portion of the research project)	
Budget Breakdown List the line-item breakdown of the budget	

Budget Description (1000 Words Max) Explain why this research can't happen without funding. This section should be more general than the itemized list above.
